

4 October

## **Br THEOPHILUS SZOPINSKI**

16 June 1867 – 4 October 1944

The only facts this writer can find about Theophilus, besides these dates, is that he entered the Society in 1893, worked at Empaneni (1901- 20) and died in Lublin, Poland. Although his name appears in the Empaneni boxes in the archives, there is no description of what he did that I can find. The photo shows part of the mission. The only clue to dating is the wagon. But even that is not conclusive.
